

We work with Industry

IDC works with one of the key players in the fabric and craft market space - Vlieseline. Vlieseline (part of the Freudenberg group, a world leader in textile production) and IDC formed a partnership in early 2015 to promote the use of high quality interfacings for beginners to professionals.

Established over 60 years ago Vlieseline has become one of the main producers of interfacings for the clothing and creative craft industry. Vlieseline is valued by sewers, tailors/dressmakers and craft makers worldwide. Vlieseline make a range of fusible/woven/sewing interlinings, plus iron-on tapes for time saving and efficiency. They have furthered their range with “Vlieseline Creative” aimed at handicraft work, such as embroidery, bags, patchwork, quilts and textile craft work.

IDC was show casing Vlieseline products at the “Great British Sewing Bee” between 21st - 24th September at the Excel centre London.

For further information on Vlieseline products and how Vlieseline can improve your craft and clothing ranges, call Brenda Killigrew at IDC - 01527 69100
